WHAT WE DO

The Living Success Center provides thousands of hours of individually affordable mental health therapy to the communities of Orange County. Our rate is determined by the individual's specific ability to pay - ranging from \$1 to \$100 (averaging \$23). A broad spectrum of individuals seeks our help. Some looking for individual help who are struggling with depression, anxiety, PTSD, social or work issues. Others seek help for family issues, improving relationships with their partner or children. We provide individual therapy, family therapy, marital therapy and group therapy. To further improve mental health, we go into the community and provide psychoeducation and routes to better mental health.

The Center works closely with the Universities specializing in Psychology training to ensure the profession of mental care workers continues into the future. We also train supervisors to ensure the new therapists become the best possible therapist. We are investing in the mental health of the communities of Orange County. Help us continue this work.
